

# SHARP SHOOTER HQ

INCREASE YOUR ACCURACY IN TARGET AND HUNTING

## DOUBLE & TRIPLE WHAMMY BROADHEADS

DESIGNED TO TAKE AFRICAN AND NORTH AMERICAN BIG GAME

**MOST ACCURATE FIXED BLADE BROADHEAD OF SIMILAR SIZE**

When you shoot our broadheads the oncoming air flow is dispersed away from the following larger rear blades by the engineered bevel on the ferrills front tip: This greatly reduces erratic arrow flight, and improves accuracy

- \* CUT ON CONTACT FOR DEEPER PENETRATION
- \* CUTS LARGE HOLE FOR BIGGER BLOOD TRAIL
- \* BLADES: Hardened stainless steel .040 thick (thicker than standard)
- \* BLADES: Replacement blades available
- \* FERRELL: 7075 high tensile strength aircraft aluminum (stronger than standard)

### TRIPLE WHAMMY

- \* 100 grain
- \* Front blade 1/2"
- \* two main interlocking blades 1-1/8"
- \* Total cut area 2-3/4"

### DOUBLE WHAMMY

- \* 100 grain (shoots like fieldtip)
- \* Front blade 1/2"
- \* Main blade 1-1/8"
- \* Total cut area 1-5/8"

### DOUBLE WHAMMY

- \* 85 grain (shoots like a fieldtip)
- \* Front blade 1/2"
- \* Main blade 1-1/8"
- \* Total cut area 1-5/8"

## 3-D FIELDMASTER SIGHT BRACKET

BEST SIGHT SYSTEM FOR SHOWING BOW TORQUE AND SHOOTING FORM.  
RED DOT SIGHT IS THE BEST FOR LOW LIGHT CONDITIONS.

- \* Engineered to move in arc so you don't need to change anchor position when you change yardage.
- \* Thumb knob for quick yardage adjustment
- \* Bracket adaptable to a variety of sights
- \* 5/8" dovetail
- \* Highest quality materials
- \* US patent

## LUMI-DOT RED DOT SIGHT

- \* Best for low light conditions
- \* Best to show hand torque and Form
- \* Duplex cross hair installed
- \* 30 MM diameter
- \* 5/8" dovetail mount
